

Week 5: Theme 'To the Moon'

Some activities for you to complete this week alongside English, Maths, Phonics & Guided Reading

<p>PSHE - Jigsaw</p> <p>This week we are thinking about how we can help each other when we or others find things difficult. Are there times when you have found school work hard to do? Was it because you didn't understand it? What could you have done to complete the activity? Sometimes we have to start at the beginning and work our way through the different activities until we are finished. We might have to ask others to help us, which is great, in order to succeed. Here are some clips for you to watch to help with this:- Best friends talk about their friendship - KS1 PSHE and Citizenship - BBC Bitesize https://youtu.be/2zrtHt3bBmQ</p> <p>Can you create a poster about a time you have succeeded at something when others have helped you? You can complete the poster on paper and send a photo to Mrs Fitter's purple mash email address or you can complete the activity set for you on purple mash. Can't wait to see your posters!</p>	<p>Science</p> <p>How can I describe an object? This week we are going to learn about describing an object using the Oak Academy lesson at: https://classroom.thenational.academy/lessons/how-can-i-describe-an-object-c9h38c</p> <p>In this lesson, we will be learning about different properties of materials. We will be identifying different objects and describing the properties of the materials they are made from. You will need a piece of paper and a pencil.</p>  <p>Can you share what you have done on purple mash through emailing?</p>
<p>DT</p> <p>Last week you made your moon buggy. You are now going to look at the design and success of it and evaluate what you have made. This means you are going to think about what went well and what you might change if you did it again.</p>	<p>Geography</p> <p>Human or physical? Human (manmade) and physical (natural) features are things that you can see all around you... can you identify some human and physical features in your local area? Watch this youtube clip of Mrs. Hunter explaining more in detail: https://youtu.be/gpSKtt3T-J8</p>

There is an evaluation sheet for you to use under resources or make your own. Please share this with us via 2email.

Now follow the BBC Bitesize lesson to introduce you to this:

<https://www.bbc.co.uk/bitesize/topics/zqj3n9g/articles/zr8q7nb>

Now complete the human and physical features of Wouldham activity found in our resources. You can email this to us on purple mash via 2email.

Active time

This week we would like you and visit Joe Wicks and his PE workouts on Monday, Wednesday and Friday. You can find them at the following website:-

[The Body Coach TV - YouTube](#)

Make sure you are getting some fresh air and going for regular walks. See if you can plan a walking route by looking on a map or online map. Once you have decided where you are going to go follow your route and see if you can find the key features of it shown on your map.

ICT

We are continuing our work on maze explorers. The activity has been set for you on purple mash. Can you use the additional direction keys to create a new algorithm? Choose your own background.

Music

Last week you came up with your own planets/ space song. This week we are going to learn to read and write our songs using rhythmic notation. Follow the lesson on Oak Academy at:

<https://classroom.thenational.academy/lessons/rhythms-6rtp6c>

RE	Art
<p>What is good news? This week we are thinking about what Jesus taught people about the world and each other and whether this might be good news for Christians and for other people too. Watch the following clips about Jesus and then see if you can talk about what you think about Jesus:- https://youtu.be/Ze7w3-BL3OM https://youtu.be/nleiAfrp2kY Did you talk about what you think? Is Jesus important just for Christians or for all people? Why do you think that? Now you can make a good news card on paper and send a photo to Mrs Fitter on purple mash email or you can complete the activity set for you on purple mash. Really looking forward to seeing your good news cards!</p>	<p>Over the next two weeks we are going to look at abstract space art and create our own in the style of space artist Peter Thorpe. There is a powerpoint telling you about him and then giving some examples of his art, attached on the website. You could also find some more online. He paints by creating an abstract background and then putting a rocket at the front. You could do this using different materials for the background or painting it and then placing your rocket on top. Share it with us through purple mash email or on our blog.</p> 
	<p>Talk Time</p>  <p>It's important to try and spend some time talking to people at home, spending too much time on the computer can be hard on our minds and our bodies! We are going to do it slightly differently this week... challenge yourself to talk for 1 minute about either the weather, animals or a family member.</p>
