Dear Parents/Carers,

RE: YEAR 5 SCIENCE

As part of our learning in science, I have promised the children in year 5 a dissection demonstration of a cow's eye, which we have been sent from a supplier especially for schools. The children won't be dissecting the eye, but will see it through the visualiser on the main screen.

In the past children have really enjoyed seeing the parts of the eye and it is a memorable and interesting experience. Obviously, attendance will not be compulsory and children who do not wish to see the dissection will be invited to a different room to do an alternative activity- they just need to let us know on the day.

The idea is for this activity to take place on Monday.

Kind regards,

Mr Wyatt-Hughes
Deputy Headteacher
